*COMMON FORUM meeting, Copenhagen, 3.10.2017*

# COMMON FORUM 2017

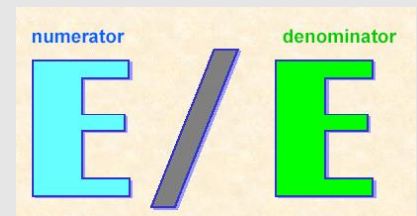

## “(HOW) DO WE WANT TO DEVELOP?”

- keeping its focus (contamination) and strengths (e.g. in overcoming “silos”)
- broadening the notion and clarifying ambitions (e.g. see WG “soil as resource”)
- discussing trends, needs and objectives in contaminated land management to develop a refined policy framework (4<sup>th</sup> generation, CLM 4.0)

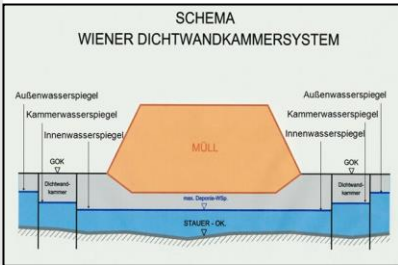

# Challenges ahead

## Contaminated site management until 2030

- **Policy Drivers; e.g. EC soil policy from 2019 onwards**
- **stagnant (?) economies & shrinking budgets:**
  - Solutions! (Remediation perceived as “out-of-pocket”-money)
- **Improving eco-efficiency („factor 4“)**
  - effective and accelerated investigation
  - tailor-made solution for remediation
- **Circular Economy**
- **SDP – Target 15.3: By 2030, ... , restore degraded land and soil, ..., and strive to achieve a land degradation-neutral world**
